[Smart Notebook Download For Mac Os X](#)

Third Party Deployment Template

Define the paths to executables used to deploy third party software across your network.

Template Name:

Third Party Executable Details

Target Platform

- Windows
- Linux
- Mac OS X

Select the authentication template with credentials to browse the network share entered below

Path to directory containing source executable file (depsvc.exe MUST be present in this directory):

\\192.168.200.42\apps\SmartNotebook19

Timeout (minutes)

Parameters

Do not check for process completion (for BIOS updates)

Copy these files locally to each target machine before installing (required if the above is not a network share, cannot be used with local impersonation)

File Path	Parameters	Timeout	Ignore Process Completion	Platform		
\\192.168.200.42\apps\SmartNotebook19\smartnotebook19.bat		10	No	Windows	Edit	Delete

Here are the most common issues people have struggled with, and the best solutions for getting those kinks worked out.. Downloading it is kind of a no-brainer because of its price tag (free!), but El Capitan (named, btw, for the famous mountain in Yosemite park) does come with some baggage of its own.
